6-8 Math (2020)

Published by: McGraw-Hill Education

Grades: 6-8

Our problem-based curriculum designed to address content and practice standards to foster learning for all. Students are encouraged to take an active role to see what they can figure out before having things explained or being told what to do. Teachers can shift their instruction and facilitate student learning with high-leverage routines that guide them in understanding and making connections between concepts and procedures.
